The New Jersey EDCs
Case Name: BGS 2022
Docket No(s): ER21030631

Response to Discovery Request: RCR-BGS-0019
Date of Response: 8/5/2021
Witness: N/A
UFE RPS Costs

Question:
With reference to the EDC's Proposal for Basic Generation Service Requirements to be Procured Effective June 1, 2022 dated July 1, 2021 at page 8, please indicate if the EDCs have quantified the proposed RPS compliance obligation resulting from the UFE proposal. If so, please provide a copy of such analyses. If not, please explain why not.

Attachments Provided Herewith: 1
RCR-BGS-0019 RPS Costs.xlsx

Response:
The EDCs have estimated the RPS compliance costs for Solar, Class I and Class II RPS requirements associated with UFE using the total system UFE (MWh) for the 2019, 2020, and 2021 Energy Years (please see response to RCR-BGS-0009). Please note that this calculation provides an estimate of what the EDCs' RPS obligation would have been had UFE been the responsibility of the EDCs in the 2019, 2020, and 2021 Energy Years. Please see the attached Excel file "RCR-BGS-0019 RPS Costs.xlxs".

RECO currently does not have this data readily available but will be implementing settlement software in the spring of 2022 that will allow RECO to readily obtain this data.
