

## **Interruptible Load Response Credits**

Effective June 1, 2008, the value of ILR credits that PSE&G receives from PJM for its residential air-conditioning cycling program will be credited on a pro-rata basis to BGS-FP Suppliers in order to ensure that the reliability benefits of these programs are retained by PSE&G's BGS customers. Currently, the value of the ILR credits PSE&G will be providing to BGS-FP Suppliers is estimated at approximately 62 MW.

The value of the ILR credits of JCP&L's load management programs will be credited on a pro-rata basis to BGS-FP Suppliers and to JCP&L for the 10 MW of load it serves in order to ensure that the reliability benefits of these programs are retained by JCP&L's BGS customers. Currently, the value of the ILR credits JCP&L will be providing to BGS-FP Suppliers is estimated at approximately 47 MW.

ACE and RECO will not have ILR credits available for BGS Suppliers.
